"Preparing Learners Today for Tomorrow"

A Publication from the Nevada Community School District
August, September, October 2013

by Steve Gray, Superintendent

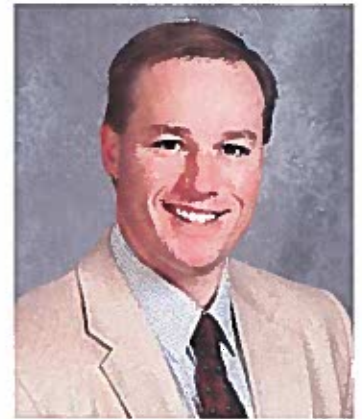

I am honored and humbled to be kicking off the new school year as Superintendent of the Nevada Community School District. It is my goal to bring a growth mindset, a dedication to servant leadership, and a determined effort to this tremendous community and school system. While I continue to gain perspective on past and current practices, successes, and challenges, it is clear that Nevada Schools has enjoyed a supportive and prideful community base. It is further evident that our district is comprised of caring and dedicated employees committed to the well being of children.

During my assessment of the District, both prior to my hire and since, I found myself noting all that is good about Nevada Schools: student achievement, programming, staff longevity, climate, facilities, technology, etc. etc. etc. The hard work and commitment of those who have built, and continue to build, the reputation of Nevada Schools is to be commended.

At the same time, I am reminded of the words of Jim Collins in *Good To Great* (2001): *"Good is the enemy of great. And that is one of the key reasons why we have so little that becomes great. We don't have great schools, principally because we have good schools. We don't have great government, principally because we have good government. Few people attain great lives, in large part because it is just so easy to settle for a good life."*

Thus, our challenge is before us: to seek continual improvement for the children of Nevada in all that we do; to continually seek the leap from good, or even very good, to GREAT; to unlock the unlimited potential that Nevada has to offer. I welcome this challenge and look forward to our journey together. Collectively, I believe we can take student opportunity and achievement to new heights, model character (Trustworthiness, Respect, Responsibility, Fairness, Caring, & Citizenship) for our students and provide them the opportunity to demonstrate, and enhance the leadership capacity among our staff and students.

I am thankful for the warm welcomes and greetings by so many and look forward to meeting the rest of you in the coming days, weeks, and months. Please do not hesitate to contact me with your questions, concerns, or comments. I can be reached via phone at: 515-382-2783, or via email at: sgray@nevada.k12.ia.us.

*If there is no dark and dogged will,
there will be no shining accomplishment;
If there is no dull and determined effort,
there will be no brilliant achievement.*

Harassment and Bullying

The Nevada Community School District is committed to providing all students a safe and civil educational environment in which all are treated with dignity and respect. The District is also committed to promoting understanding and appreciation of the cultural diversity of our society. The Nevada Community School District shall educate students about our cultural diversity and shall promote tolerance of individual differences. The Board Policies 502.10 and 502.13 can be found in their entirety on the District website www.nevada.k12.ia.us. Health Service Responsibilities

The health service responsibilities for grades pre-kindergarten through twelfth are shared by two nurses. Not only is the focus of physical care for the students but on health promotion and health education as well. The complete school health program includes elements of health service, health education and a healthy school environment to help meet the educational and health needs of the student population.

Some of the health services for students and staff include screening programs, illness care, emergency care and first aid, health counseling and communicable disease control. Screening programs which include vision (grades kindergarten through 8th) hearing, blood pressure, height and weight measurements, are completed each year.

Health counseling, an increasingly important part of health service, involves conferences with students on concerns such as family problems, personal health problems, pregnancy, weight-control, stress and/or hygiene.

Another area of school health deals with health education. The school nurse is often a classroom presenter or serves as a resource for the classroom teacher. Programs are provided on subjects such as sex education, sexually transmitted diseases, communicable and chronic diseases, hand washing, dental health, growth and development and CPR.

Through health services and health education the school nurse can help students make healthy and responsible choices.

Open Enrollment

Parents/guardians considering the use of the Open Enrollment option to enroll their child/ren in another public school district in the State of Iowa should be aware of the following dates:

- * September 1, 2013 – Last date for Open Enrollment requests for students entering kindergarten in the Fall of 2013.
- * March 1, 2014 – Last date for regular Open Enrollment requests for the 2014-15 school year.

Parents/guardians of Open Enrolled students whose income falls below 160% of the federal poverty guidelines are eligible for transportation assistance. This may be in the form of actual transportation or in the form of a cash stipend.

Parents should be aware that the Open Enrollment may result in the loss of athletic eligibility. For further details, contact the Superintendent's Office at 382-2783.

Post Secondary Enrollment Options Act

As Juniors and Seniors plan their class schedules, it is important that they are aware of the opportunity to enroll in college classes. The Post Secondary Enrollment Options Act is intended to promote rigorous academic pursuits and to provide a wider variety of options to High School students by enabling eleventh and twelfth grade students to enroll part time in nonsectarian courses in eligible post secondary institutions of higher learning in Iowa. In simple terms – a Junior or Senior in High School has the option to attend a university, college, community college or private institution that is eligible under the act. Several Nevada students have taken advantage of this opportunity in past years.

For students enrolling under this act, tuition is authorized to be paid by the local school district. The amount of tuition reimbursement for each separate course shall equal the lesser of the actual and customary costs of tuition, textbooks, materials and fees directly related to the course taken or two hundred and fifty dollars (\$250). Students and/or parents interested in learning more about earning post secondary credit while in High School should contact Jeff Baker, High School Guidance Counselor.

School Bus Safety – Kadyn’s Law

One would think it would be difficult to miss the flashing amber and red 8-way flashers on the bulkhead of our buses front and back as well as the red flashing lights on our two bus-mounted stop signs. Unfortunately, this is a common occurrence. The purpose of the law is to protect our students. The fine is issued only after the dangerous action is over and is used as a deterrent in the future. Under the bill, Senate File 2218, a first offense fine is at least \$250 and up to \$675, and a violator can be sent to jail for up to 30 days. A second offense within five years is a serious misdemeanor, with fines ranging from \$315 to \$1,875 and a jail term up to a year. Nevada has cameras mounted in most of our buses. This has been a very valuable tool in identifying the vehicles involved in the situation. Every year we hear about young children getting killed or injured in situations involving school transportation. Most schools, including Nevada design our bus routes to minimize the risk for our students but we need your help. Keep in mind that it is illegal and dangerous to pass a school bus from either direction while the red lights are flashing and the stop arm is extended. You must slow to 20 mph or less and be prepared to stop a minimum of 15 feet away from the bus when approaching from the front when the amber warning lights are flashing. The only time these lights are going to be used is when children are coming to or going away from the bus at their designated stops so please stay clear until all children have left the area. For a complete set of details, please go to the Code of Iowa (Iowa Code section 321.372) at <http://www.legis.state.ia.us/IACODE/2001/321/372.html>.

Teacher Qualifications

Parents/Guardians in the Nevada Community School District have the right to learn about the following qualifications of their child’s teacher: whether the teacher has met state licensing criteria for the grade level(s) and subject area(s) taught; whether the teacher is teaching under emergency or provisional status through which state licensing criteria would have been waived; the undergraduate degree major of the teacher, and any graduate certification or degree held by the teacher, including the field of discipline of the certification or degree; if your child is provided services by paraprofessionals their qualifications.

Parents/Guardians may request this information from the Office of the Superintendent by calling 515-382-2783 or sending a letter of request to the Office of the Superintendent, 1035 15th Street, Nevada, IA 50201.

Tobacco/Nicotine Free Environment

In the best interest of students and adults alike, the Board has established a smoke free environment on all school grounds. Knowing that smoking is physically addictive, all persons will be provided the opportunity of breathing clean air in the district’s public buildings.

All school district owned facilities and grounds shall be off limits for smoking at all times and the ban is extended to all persons. This includes all school-sponsored events as well as non school-sponsored events. Persons violating this policy shall be asked to refrain from smoking. Persons failing to abide by this request shall be required to leave the school district premises immediately. School district personnel failing to abide by the request will be subject to disciplinary action.

Use of Video/Audio Cameras on School Buses

The Nevada Community School District Board of Directors has authorized the use of video/audio cameras on District buses. The video/audio cameras may be used to randomly monitor student behavior to maintain order on the school buses to promote and maintain a safe environment. Students and parents are hereby notified that the content of the recordings may be used in a student disciplinary proceeding. The content of the recordings are confidential student records and will be retained with other student records. Recordings will only be retained if necessary for use in student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view recordings of their child if the recordings are used in a disciplinary proceeding involving their child.

Video Surveillance

Nevada CSD uses video surveillance /electronic monitoring equipment to observe, monitor and/or record the behavior and activity of all persons on school property or grounds, or participating in school functions.

Student Records

Nevada Community School District maintains records on each student in order to facilitate the instruction, guidance and educational progress of the student. The records contain information about the student and his or her education and may include, but are not limited to, the following types of records: identification data, record of achievement, family background data, aptitude tests, educational and vocational plans, honors and activities, discipline data, objective counselor or teacher ratings, and observations and agency reports.

The records of each student are generally located in the school in which he or she is attending. The person in charge of record maintenance for each school building will note in the student's other records any exception. The name and position of the person responsible for maintenance of student records for each school building is listed below.

| | |
|--------------------|--------------------------|
| Central Elementary | Kathy Goecke, Principal |
| Middle School | Chris Schmidt, Principal |
| High School | Justin Gross, Principal |

The following persons, agencies and organizations may have restricted access to student records, without prior written consent of the parent or student over the age of 18 years. Any other access to student records shall be only upon written consent or upon court order or legally issued subpoena.

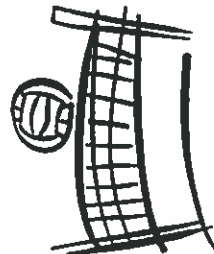

- To school officials within the school district and AEA personnel whom the superintendent has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees;
- To officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts;
- To the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities;
- In connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid;
- To organizations conducting educational studies and the study does not release personally identifiable information;
- To accrediting organizations;
- To parents of a dependent student as defined in the Internal Revenue Code;
- To comply with a court order or judicially issued subpoena (consistent with an interagency agreement between the school district and juvenile justice agencies);
- In connection with a health or safety emergency; or,
- As directory information.

Student records are reviewed and inappropriate material destroyed periodically and, at a minimum, whenever a student moves from the elementary level to the middle school level, from middle school level to the high school level, and when a student transfers out of the district. Those records not of permanent importance are destroyed within three years after graduation or discontinued attendance.

The parents of disabled students, or disabled students over age 18, will be informed when personally identifiable information in the records is no longer needed to provide educational services, and before the information is destroyed.
